Green	53.2%	Healthy chlorophyll content

Yellow	23.5%	Possible stress or chlorosis
Brown	14.1%	Necrotic or diseased tissue
Other	9.2%	Background or non-leaf pixels
Condition	Nutrient Deficiency	
Health Index	15.5 / 100	

Recommendations

Pesticide: Apply neem-based organic pesticide as preventive measure.

Prevention Tips:

- 1. Remove and destroy all infected plant material from the field immediately.
- 2. Apply recommended fungicide/bactericide at the prescribed dosage.
- 3. Maintain proper field drainage to reduce moisture stress.
- 4. Avoid overhead irrigation; use drip or furrow irrigation.
- 5. Schedule follow-up inspection after 14 days.
